To Whom It May Concern:

Re: Practical Fitness & Wellness (PF&W) Services and Jason Greenspan

I am a resident and Board member of the Copley Condominium & Club, located at 2000 Broadway, between 68th and 69th Streets in Manhattan. I have resided in the building and have been on the Board for more than 20 years.

Our health club has been under the direction and guidance of Jason Greenspan and, more recently, Practical Fitness & Wellness, for the past ten years. Jason has been a tremendous asset to our health club and the building, continuously improving our club and “raising the bar” to new levels in a way that has benefited our club as well as our building.

PF&W services offered to our residents currently include massage, yoga and Pilates classes, swimming lessons and other personal training, as well as wonderful amenities such as towels and a fruit basket at the health club front desk. The club also offers and sponsors parties and fitness events.

I have been very pleased with the services provided by Jason and PF&W and have found that the personalized service we receive is generally superior and of higher quality than offered by larger companies.

Please feel free to contact me with any questions or if I can be of further assistance.

Thanks,

STEVEN SKLAR
